WMC adds news magazine

Beginning Monday, the newsmagazine "America Now" will air at 2 p.m. weekdays on WMC-TV Channel 5.

"The Dr. Oz Show" that previously held that spot will move to 3 p.m., displacing "The Dr. Phil Show," which is leaving the station's lineup.

"America Now," produced by ITV Studios America and Raycom Media, will be hosted by Leeza Gibbons and Bill Rancic.

The hourlong show will offer news and lifestyle stories from around the country on topics including personal finance, health and fitness, food, home improvement, style and fashion, pets and technology.

"With their experience across so many segments of television, Leeza Gibbons and Bill Rancic are a perfect team to lead this show," said Paul McTea, president and CEO of Raycom.
